

WAS WIND-SWEPT

The Town of Carrabelle, Fla., Reported Almost Completely Destroyed by a Storm.

MANY BOATS IN HARBOR WRECKED.

Reports Say the Steamer Crescent City Has Been Lost Between Apalachicola and Carrabelle.

Several Persons Reported Stranded at St. Marks—Houses Destroyed at St. Teresa—The Turpentine Industry in That Section Greatly Damaged.

TALLAHASSEE, Fla., Aug. 3.—The town of Carrabelle, a prosperous port on the Gulf of Mexico, southwest of this city, is reported almost completely destroyed by a terrific wind and rain storm which passed through this section during Tuesday and Tuesday night. Many boats which were in the harbor have been wrecked, and most of the long wharf is gone, together with large quantities of naval stores. At Lanark, the boat houses, pavilion and boats have been destroyed. Unconfirmed reports say that the steamer Crescent City has been lost between Apalachicola and Carrabelle. Several persons are reported drowned at St. Marks. A few houses were destroyed at St. Teresa. Turpentine, Ashtamore and Curtis mills have suffered severely. A passenger train on the Carrabelle, Tallahassee & Gulf railroad, 35 miles below Tallahassee, was badly wrecked, but no one is reported killed or injured. The turpentine interests in this sections are greatly damaged and much injury has been done to crops.

The wires are down south of here, and railroad service to the Gulf port is suspended. The storm was one of the hardest that ever passed over this section. It came directly up from the Gulf and started northward. For hours the wind was terrific, blowing at a high rate, and rain fell in torrents, washing away many bridges and endangering thoroughfares on railroads. The storm reached the coast Tuesday morning, and there was no cessation until late Tuesday night. The wires on railroads have been so interfered with that the results of the storm are beginning to reach this city. Along the coast the fishing industry has been severely interfered with. Many Tallahassee are at the various resorts along the coast from which no report have come, and the conditions at these places is causing much anxiety.

Parties who returned on the wrecking train which went to Carrabelle Wednesday morning report that the country along the route shows the effects of the storm. The train was compelled to run with great caution, owing to the condition in which the storm had placed the road-bed. The water had been over the track in many places. Passengers on the train which was wrecked say the train was blown from the track.

The city of Apalachicola, at the mouth of the Chattahoochee river, is entirely cut off from the communication and nothing can be learned from there.

A new trestle over the Ochlocknee river at McIntyre was blown away. The wrecking train which went out Wednesday in the stricken territory found over two hundred trees on the track in a run of 30 miles. General Manager Crittenden, who had charge of the train, says that every town along the line is desolated. Hotels, houses, churches, saw mills, warehouses and pavilions, were in many places blown from their positions and in many instances completely wrecked. There are many rumors about here Wednesday as to the loss of life. One hand is known to have been drowned at McIntyre. One man was drowned at St. Marks but rumors place the loss of life at 15. It is not believed here that any lives were lost at the numerous summer resorts, but reliable news is unobtainable.

The officers, however, were unable to take their prisoner outside the legation doors. The United States minister, Mr. Wm. F. Powell, entered a protest against the action of the officers, and demanded the release of the prisoner. The Haytian government gave way to the protest of Mr. Powell and M. Duvier was set at liberty.

AT THE NAVY YARD

Precautions Taken at the Norfolk Naval Hospital to Keep Yellow Fever Out.

GENERAL EXODUS FROM THE VICINITY

Business Is Practically Suspended and Boat and Railway Offices Crowded With Frightened People.

Sanitary Inspectors and Special Policemen Appointed and Citizens Generally Are Cleaning Up the City—Organized Tendency Their Services to Authorities.

WASHINGTON, Aug. 3.—Surgeon General Van Heyden, of the navy, has directed the surgeon in charge of the naval hospital at Norfolk to use every precaution to keep the yellow fever out. The hospital has a contagious disease building in the woods some distance from the main building. If there should be the slightest symptom of fever at the hospital, the case will be removed to the contagious building, and should a genuine case of yellow fever develop it will be taken to the quarantine station at Cranley island.

Passengers arriving here from Norfolk by boat to escape the yellow fever report a general exodus from Norfolk and vicinity. Every man who can afford it is sending his family to a safe distance. Business, he says, was practically suspended, and steamboat and railroad offices are besieged with frightened people. One of the arriv-

ers of the home will be lodged in the hotel while they make reservation in thoroughly disinfected. When the quarantine inspectors met the cannon ball on the Norfolk and Western road Wednesday morning they found aboard bound to Norfolk 21 passengers who could not give the satisfactory account of themselves required by the health authorities of the city. The train was held at Tucker, about five miles out from Norfolk for two hours and finally the car containing the persons referred to was detached from the train to be sent back to Richmond.

CONGRESSMAN ROBBED.

Wm. C. Lowring, of Massachusetts, Herberd of His Pocket Book and Valuable Contents Near Havana.

BREKIDLE, Aug. 3.—William C. Lowring, member of the United States house of representatives from Massachusetts, was robbed on Saturday last while on his way from Ostend to this city. Mr. Lowring, while in the station at Ostend, was jostled by two men, but took little notice of the occurrence at the time. On arriving in the city, however, he discovered that his pocketbook, together with \$13,000 worth of valuable papers and notes for £25 sterling, had disappeared. The matter was placed in the hands of the police.

ing citizens from Norfolk said that they fight as hard as they can to keep the fever out of the city.

Many sanitary inspectors and special policemen have been appointed and citizens generally have turned in to clean up the city. Many alarming rumors were in circulation, one report not verified up to the time the citizens left, that there were five cases in a large town near Norfolk. No rumors prevailed of any cases in Norfolk itself.

The volunteer surgeons Wednesday tendered their services to Gen. Wyman for duty in the infected region. They are acting assistant surgeons in Vicksburg, Miss., and Assistant Surgeon John Anderson, of New York. Dr. Frank Donaldson, of New York, an inmate who has seen service in Cuba, left Wednesday evening for Newport News under orders from Dr. Wyman.

NORFOLK, Va., Aug. 3.—The rigid quarantine measures which have been put into effect and the unanimity of the action on the part of the health authorities of the state and city have done much toward restoring confidence in the city. The exodus is in the best position to know that the yellow fever will reach Norfolk and the temporary fever which almost paralyzed citizens and killed business when the startling news from the soldiers' home first reached here, is gradually wearing away and commerce is once more thought of. It is true that people are leaving Norfolk, but the exodus is usual and incident to the summer season. There is some little fear here, but it is due more to the consequences of the quarantine regulations than to the fever itself.

Every possible precaution is being taken. The beach for a distance of five miles is patrolled night and day, while several tugboats and steamers are constantly on the lookout for any and all craft from the infected district.

The latest information from the home Wednesday night is that there was one death and no new cases during the day. Thursday all the old vet-

the Pennsylvania regiment, seemed to have imposed every one in an unusual flag, and along the water front flags hung at half-mast. A detachment of soldiers carried the casket containing the remains from the transport to a waiting hearse. A guard will watch it constantly and when the remains are placed on board the cars for the east a guard will be detailed to accompany it.

It has been decided that the men shall march to the barracks at the presidio Thursday under the escort of the returned Oregon, Utah and Nebraska troops.

COLUMBIA, O., Aug. 3.—The national convention of the Regular Army and Navy Union of the United States has been changed from Baltimore, Md., to Washington, and will be held on the third Wednesday in October next.
